

# OPHIR DIRECTORS DECLARE DIVIDEND PAYABLE JAN 25

Ophir met public expectations yesterday by announcing another 10-cent dividend from the rapidly accumulating surplus in its treasury. The dividend is payable January 25th to shareholders of record of January 15th. The funds for this dividend are extracted from the Hardy vein, which has proved to be one of the longest lived and most consistent bodies of ore uncovered by the company in recent years. It gives every prospect of continuing to do so for a long time to come.—Journal of Commerce.

News that it has been definitely decided to declare another 10c dividend on Ophir stock and that the directors of that company will meet for that purpose, caused a little better support to be given the north end group of Comstocks at the first session of the mining exchange here. On the regular call, there was a fair demand for Ophir at \$1.65, or 2 1/2 cents higher than the best figures of yesterday's advance and 300 shares were sold at that price. Buyers and sellers of Mexican were too widely apart to permit of any sales. The bidding price was \$4.15 and \$4.20 was asked. Consolidated Virginia opened steady at 99c sales and closed on the call at 98c bid, \$1 asked. Sierra Nevada sold at 27c. Union was firmer at \$1.10 bid, \$1.27 asked.—Bulletin.

# WOMAN ACQUITTED OF THE CHARGE OF CHILD MURDER

STORY OF HURLING BODY OF LIVE BABE FROM PULLMAN IS EXPLAINED.

RENO, Nev., Jan. 12.—By order of the district attorney of Oakland, Mrs. C. W. Welshon of Sparks, held pending an investigation into a charge that she had thrown an infant child from a Pullman car, causing its death, was released and exonerated from the charge on last Tuesday.

Yesterday Attorney C. R. Reeves of Reno, who went down to Oakland to look after Mrs. Welshon's interests, learned that the action was taken and that it was based on a reading of the findings of the coroner's jury. The findings were to the effect that the child was dead when prematurely born, and that the body was accidentally lost from the car and not thrown from it by design.

The action of the district attorney closes a case which from first reports promised to be sensational. It was first brought to attention on the finding of the dead body of an infant. Later it was said that the body had been hurled from a Pullman car window and Mrs. Welshon, who was a passenger on the car, was held for investigation. It was stated at first that experts were of the opinion that the child had been born alive.

The coroner's jury, which held the inquest over the body of the infant, made a thorough investigation which developed the fact that it had been born dead.

Further investigation revealed the circumstances under which it was lost from the car and negatived with the idea of criminal intent.

# Why Send Out of Town for Your Printing

When you can have first-class work done right here, by first-class union printers.

The business man who sends out of town for his printing injures his own business as well as that of others. While on the other hand the man who patronizes home institutions increases the town's pay roll, and thereby builds up his business.

of said Complaint.

The said action is brought to dissolve the bonds of matrimony now existing between Plaintiff and Defendant on the grounds of neglect of the Defendant, for over a period of one year, to provide Plaintiff with the common necessities of life, when such neglect was not the result of poverty on the part of Defendant, which he could not avoid by ordinary industry. That Defendant without excuse and with the ability to provide said common necessities of life for Plaintiff failed and neglected to do so for over a period of one year.

This action is also brought for the purpose of decreasing any property heretofore acquired or held by Plaintiff, at time of judgment, to be her own separate property. And you are further notified that if you fail to appear and answer said Complaint, as above required, said Plaintiff will apply to the Court for the relief demanded therein.
